

Police Activity in Oak Hollow Subdivision, November 2009 - April 2010

NOTES

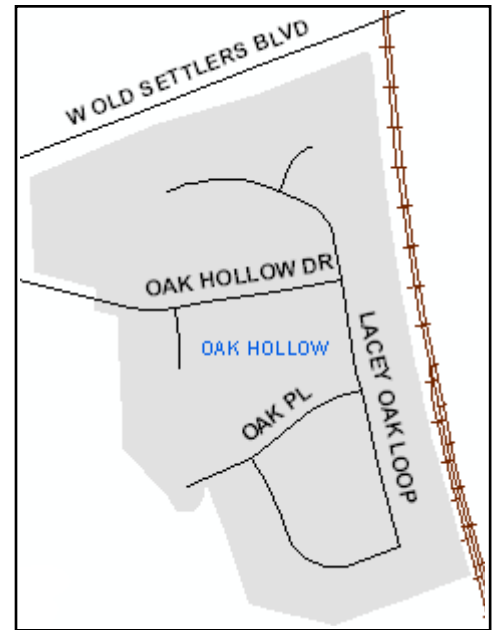

This map shows the streets that are included in the analysis (those bounded in gray). All of Oak Hollow Drive is captured within this analysis, but W. Old Settlers Blvd is shown only as a reference.

The data source for this analysis is the Police Department's Computer-Aided Dispatch (CAD) database. That means the data are drawn from the information police dispatchers enter into the computer as calls occur. The primary limitation of these data is that they may not reflect the actual nature of a call or its true final disposition. Thus, some care should be exercised in interpreting the results presented here.

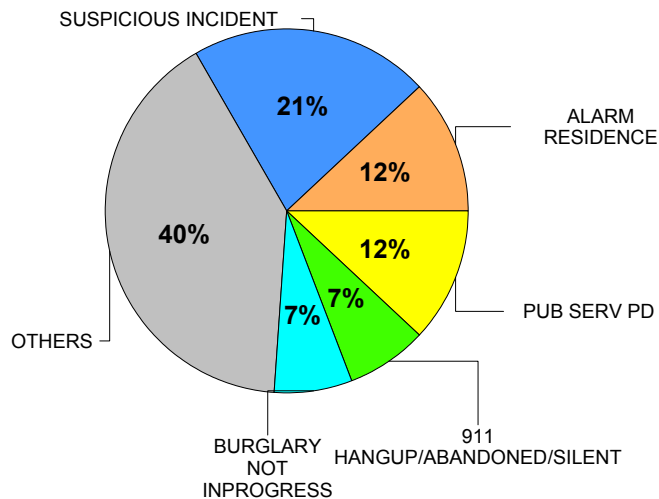

Traffic stops and animal-related calls are excluded from this analysis.

If the police activity on this report appears differently than it has in the past, that is because the unit in June 2007 revised the data queries underlying some of these reports to more accurately capture activity on the streets within the study area. That revision affects not only June activity but also the prior months that appear in the report

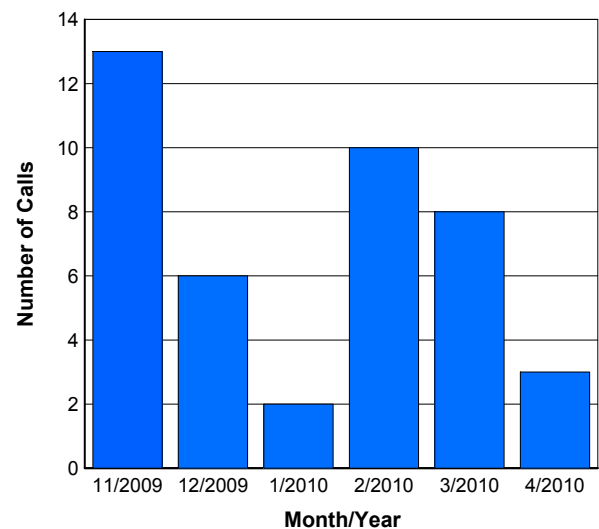

Questions about this report should be directed to the RRPD Logistics and Research Unit, Rick White, Phone: 512-2 18-5524, Email: rwhite@round-rock.tx.us
